

Optimize Reimbursement and Minimize Audit Risk

Maximize Reimbursement

For independent pharmacies, time is money.

of independents own two or more stores¹

44,997

scripts per year per store, on average²

Confirm Correct Coding

In 2020, claims with incorrect DAW codes cost pharmacies an estimated:

\$89.5 million

in lost annual revenue³

Ensure Accurate Pricing

Prescription drug prices change rapidly. In 2020, the U.S. market saw:

47 million

recorded price updates⁴

\$129.4 million

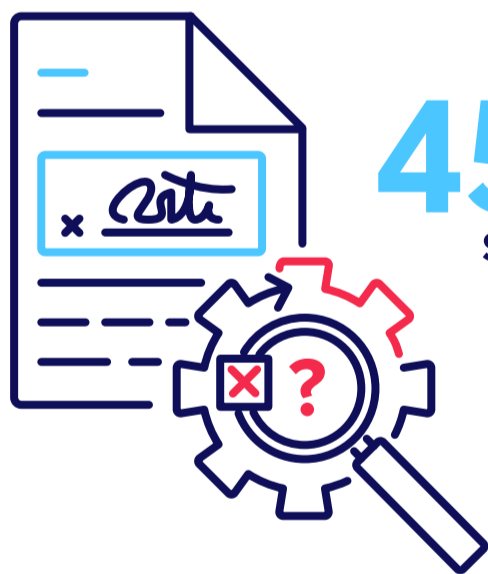

increase in total submitted ingredient costs⁵

Claims that were reversed and resubmitted with the correct pricing, via payer compliance channels, resulted in an average gain of:

Minimize Audit Risk

In one month, a sanctioned or otherwise ineligible prescriber can issue more than:

450

scripts, putting

\$89,882

at risk⁷

Reduce Administrative Burdens

To promote pharmacy compliance with federal, state, and/or local regulations, U.S. pharmacies must make:

1.2 million

edits/month⁸
